Showing an increase of		\$ 826 03

We desire to call your attention to the Financial Standing of the town. You will see by the above comparative statement which shows an increase in net liabilities of \$826.03. Now if you will refer to the report of 1904, you will see that your Treasurer of that year reports that there was \$892.00 interest due March 29, which should have been added to the liabilities of that year. We think some provision should be made to take care of this interest, also to pay a part of these notes every year. We would also call your attention to the Arrearage bill of \$181.66 due on Log Bridge account that came over from last year, which should also have been added to the liabilities of that year.

The School District also voted to appoint a committee to look after No. 8 school-house, and to lay out what they thought was necessary. We have already paid out \$462.91 for which no provision had been made. Now when you take all of the above accounts into consideration, it would show instead of an increase, a decrease to the amount of \$708.54.

Respectfully submitted,

GEO. V. EASTMAN,
HAVEN A. QUINT,
C. E. MESERVE,

Report Conway Police Court.

FOR YEAR ENDING FEB. 15, 1905.

This Court was established by vote of the town at its last annual meeting. Soon after this Mr. James L. Gibson was appointed Justice of the Court, and immediately appointed regular Court sessions on the first Wednesday of the month, as follows :

At North Conway, January, April, July, and October.

At Conway, February, May, August, and November.

At Center Conway, March, June, September, and December.

Later, H. Boardman Fifield was appointed as a Special Justice.

As the Court becomes better known, it is evident that its influence increases and it is destined to become a larger factor in our town affairs.

Forty-seven cases have been heard and passed upon, as follows :

Suit for damages,	1
Taking short trout,	1
Larceny,	2
Breaking and entering,	3
Assault,	4
Trespass,	4
Trustee writs,	5
Illegal sale of liquor,	7
Riding bicycles on sidewalks,	8
Drunkenness,	12
	<hr/>
	47

The expenses have been as follows :

2 Record books,	\$ 95
1 Seal,	2 25
Printing blanks,	25 00
Salary of Justice,	100 00
	<hr/>
	\$128 20

The receipts have been :

Costs and fines,	\$112 35
Selectmen,	15 85
	<hr/>
	\$128 20

Respectfully submitted,

JAMES L. GIBSON, Justice,

H. BOARDMAN FIFIELD, Special Justice.

AUDITORS' CERTIFICATE.

Conway, N. H., Feb. 22, 1905.

We hereby certify that we have examined the accounts of the School District of Conway for the fiscal year ending Feb. 15, 1905, and find them correct, with proper vouchers on file for all amounts paid out.

HENRY B. COTTON,

HIRAM H. DOW,

Auditors of Conway.

Report of School Board.

The fiscal year just closed has been one of interest and general satisfaction and credit to all concerned; we feel that no backward steps have been taken. Nineteen pupils were graduated from the grammar school course: Leonora F. Dolloff, Ernest G. Fifield, Maggie E. Hale, Ernest M. Merrow, Agnes M. Warren were members of the Conway class; Myrtle Flint from Green Hill; Mabel Alley, Hattie Carter, Myra Charles, Susie Clifford, Abbie Lucy, Patrick Maloney, Harold Mudgett, Annie Munro, Lillian Nute, Lena Pickard, Russell Ricker, Mabel Rogers, Richard Seavey from North Conway. The graduating exercises were very interesting and well attended. The parts were well rendered and the papers showed thoughtful and careful study. We are sure everyone who attended these exercises was proud of the Conway graduates of 1904.

To the credit of our pupils, it is a pleasure to say that study is becoming popular. A goodly number of our graduates are attending schools of higher grade in various towns and cities in the State, taking advantage of Chapter 118, Section 1 Session Laws of 1903: "Any town not maintaining a high school or school of corresponding grade shall pay for the tuition of any child who with parents or guardian resides in said town and who attends a high school or academy in the same or another town or city in this State, and the parent or guardian of child shall notify the School Board of the district in which he resides of the high school or academy which he had determined to attend, provided, however, that no town shall be liable for the tuition of any child in any school, in excess of the average cost per child of instruction for the regularly employed teachers of that school and the cost of text-books, supplies and apparatus during the school year preceding, nor, in any case, shall the town be liable for the tuition of any child in excess of forty dollars per year." We would call the attention of the parents to the fact that the law means that they shall notify the School Board of their determination to send their children to other schools, that we may know what to expect in the line of bills for tuition. Each year is bringing to us new demands, and since the closing of the financial accounts, bills for tuition have come to us, and others may come.

We would like to call the attention of the tax-payers of the school district to the amount of money being paid, as by law we are compelled to do, for tuition of scholars in this district attending high school or academies within this State. Besides what has already been paid for the fiscal year, bills for sixty dollars have been received since the 15th of February, and bills for about one hundred dollars more are expected for the coming year. Does it not seem that the time is near at hand when we had better apply this money to the support of a high school in our own town? Should the interest of parents in sending their scholars to high schools increase in the next few years as it has in the past two years, it can easily be seen that the money paid out would substantially defray the expenses of a high school. We invite and recommend a careful and thoughtful investigation of this matter of paying tuition of students attending high schools or academies in this State by towns not having a high school as Conway, with a view of establishing a high school in our own town in the near future.

We would call the attention of parents and guardians to still another notice. The State school year begins in September: little children attending school for the first time must enter in September. This rule applies only to children who have never attended school and cannot read and do number work well enough to enter classes already formed.

Per order of

SCHOOL BOARD.

REPAIRS.

As in past years, we have endeavored to practice the strictest economy in the repairs on our school buildings. But, as has been stated in another part of this report, some expensive operations in the repairs of school buildings have been demanded. The trial of the past severe winter has proven the new heating plant at No. 8 fully adequate for all requirements. We trust the call for appropriation to meet the expense will be met by the voters in a whole-hearted, cheerful manner. The roof of the school building at Conwry Village was newly shingled. The coming year the most important needs are an addition to the woodshed at Conway. The interior of the old school-room at Redstone needs considerable attention. The ceiling in several places is sagging, a large piece of plastering is off near one door, caused by the wind slamming the door, and the walls need to be whitened or tinted. We would recommend a wood ceiling. The ceiling and walls of the Green Hill school-room also need to be freshened. Considerable repairing needs to be done at the West Side school-house the coming year. To cover all repairs above mentioned we recommend the sum of \$400.

TRUANCY.

This is a grave subject and one that causes many of our teachers much annoyance. In the various villages Truant Officers are appointed by the School Board, yet no special gain is made in this matter, and we continue to have a larger number of truants than we ought. We fully believe that we shall meet with no success in handling this question until the School Board more strictly enforce the law and occasionally send the incorrigible pupil to the truant school. One example is more effective than many plans devised by the officers. We should look to the welfare of the individuals and the good of the schools. We are sorry that there are any parents in town who do not appreciate the advantages of an education and allow their children to absent themselves from school. Either this matter must continue loosely, or it must be met in one of the two following ways: either the parents must see that their children attend the regular sessions of school, or the children must be sent to the State Institution for such offenders. Such prosecutions are distasteful to the School Board, nor do we like to impose upon the town the necessary expense which such proceedings must incur.

In the north part of the School District several changes have left their mark upon the schools of this part of the town, the greatest change being, of course, the substitution of a new steam heat plant for the old worthless furnace at No. 8, and a new system of closets placed there by the sanitary committee appointed at the last school meeting. The sanitary conditions at No. 8 were so bad that this committee considered immediate action necessary, and the school was by that means suspended for one week while the substitution was made. Later in the season the steam heating plant was installed, the committee realizing that it would be impossible to maintain a school during the past winter without some new heating arrangement. The water supply proved insufficient, and a larger pipe was laid from the street, and an arrangement for the drinking water established on the first floor instead of in the basement with the closets as before.

So now we can say that the sanitary condition of the school-house at No. 8, which has caused the people of Conway so much anxiety, is of the very best. And in the ensuing year the same can be said of the school-house as a whole except that the four windows for the south side of the building asked for in last year's report are still needed, as in the short winter days the intermediate and grammar rooms are dark before closing time. The teachers have not been obliged to close the school for a day or a part thereof as a result of smoke or lack of heat, and this is something that has not happened for some time past. The School Board are of the opinion that the people of

Conway should unite in their approval of the improvement made, where it was evident that if school kept improvement must be made, by appropriating whatever sum may be necessary to reimburse this committee for the money expended in making such improvements. The old furnaces were sold and the money turned into the town treasury.

The tax-payers of the School District, by referring to reports of past years, will find that a greater or less sum has been paid the principal for janitor work, and the sweeping has been done in any way that was found most convenient by the teachers themselves, or not done at all. As a result the building was not properly taken care of; and those who have examined the furnaces and assume to know, say that their condition was largely due to improper care; hence the School Board thought that, as a man could be employed for slightly more than had been paid the teacher, giving his whole attention to the work, and better results be obtained as to the condition of the building and in the teaching, if the principal's attention was not divided as heretofore, it would be wise to employ a janitor, as has been done, and the condition of the building at this time with respect to its care, as compared with last spring, will amply demonstrate this, as anyone who has visited the schools at both time can bear us out in saying.

The roof of the school-house at No. 15 was found to be in such bad shape last fall that every rain meant the drenching out of one or more scholars from their seats, so the roof was newly shingled from the general repair fund.

The ceiling at the McMillan school-house is in very bad shape, the plastering being off in several places, and the rest is nearly all loose or hanging. Now it seems to the Board, and we recommend that this ceiling be papered and sheathed without removing the plastering; in this way doing away with future mason work and making the building all the warmer. It has been estimated that it would cost, labor and material, complete, not exceeding and possibly less than \$80. Also there is no opportunity for the scholars going to this school to procure drinking water. In the past, during the summer while school was in session, water has been obtained from a spring on the side of the hill opposite the school-house, or from the Tucker watering trough; but now the spring has gone dry, and the watering trough is closed the greater part of the school year. It would seem that some provision should be made for drinking water.

There has been but little change in the corps of teachers in this part of the town; those who have served us in the past and been retained this year have certainly given us their best efforts, resulting in efficiency and satisfaction. And as to the new ones engaged, they have proved most satisfactory. At

the close of the last spring term the grammar room at No. 8 was in a demoralized condition: discipline was practically unknown; but under the principalship of Mr. Dinsmore it has developed into a school of which the School District may well feel proud. The Board were obliged to pay Mr. Dinsmore more than had formerly been paid for a principal here, namely \$13, but considering the results obtained, we think the additional expenditure a good investment.

GENERAL REMARKS.

Considered as a whole, the schools of Conway are a credit to the town. They are steadily improving from year to year; still the standard of school work is far from being all that is desired. The age is one of rapid advancement, and our public schools must keep abreast with the progress of the times. The old notion that anyone can "keep school" is fast disappearing from the minds of thoughtful people.

Education has practically been reduced to a science, and mere scholarship is not sufficient intellectual outfit for the teacher's work. A diploma, faithfully earned, does much to make a good teacher, as it does to make a good physician or a good lawyer; but few employ a physician or a lawyer who has not added to his general training some special training for his profession. Is it unreasonable to apply the same rule in the selection of teachers? Certainly, a careful and systematic study of the laws of mind with reference to mental growth will enable a person to deal more wisely with the perplexing problems of child-life that are constantly presenting themselves to a teacher for solution. The teacher needs to know not only the subjects taught but how to present them to the young minds, and therefore cannot be too highly cultivated. The work of the teacher is too closely related to the welfare of the community to be passed by with a simple comment. Every citizen has a right to know, and should know by personal acquaintance, who our teachers are, what their habits are, and what influence they exert over the pupils. Not everyone who secures a school necessarily teaches: "He alone teaches who is a teacher." Emerson replied to his daughter's question of what she should study, that it made no difference what she studied; the question was with whom she studied. When our citizens are awake to the fact that the teacher is the soul of the school, and that the school is the safeguard of the State, they will see to it that none but true and inspiring men and women long hold such a position of trust in the community. The somewhat common idea that the teacher's work is confined to the few hours the school is in session is far from true; many of our teachers are engaged from early morning until late at night with the work of their schools. They frequently deny them-

selves social pleasures in order to satisfy the demands of the school. Such teachers have made our schools what they are today, and are deserving of words of commendation from the School Board, parents, and all interested in the welfare of the town. To know that their work is appreciated will give them new energy and inspiration.

We desire to thank the teachers who have labored so faithfully for the best interests of the schools for their many kindnesses and words of encouragement that have rendered our work with them so pleasant.

In closing, we wish to thank the tax-payers for the support they have given the public schools in the past; we feel that they are loyal to the interests, and willing to be taxed liberally for their support. The past school year has been one of 32 weeks. While we should be glad to have the year lengthened by one or two weeks, in order that the work of the pupils as laid out by our course of study may be thoroughly done and the retention of our best teachers guaranteed, we do not desire to increase excessively the burden of taxes by asking for too much demanding too many changes in a single year. Our only desire in this respect is to give the people of Conway just as good schools as possible for the amount of money they feel able to expend upon them. We hope that no less than twenty-five hundred dollars above that required by law will be appropriated. The average cost per week for teachers, transportation, and janitor work has been two hundred dollars. It is not probable that it will be any less the coming year.

We presume the tax-payers will notice the overdraft of thirty dollars. It was a question with the Board whether they should give all schools an additional week the past winter term or have a balance in the treasury of the difference between \$30 and \$200. We felt it only just to pupils and teachers to continue the schools.

We desire to express our obligations to all for their continued support and co-operation.

Respectfully submitted,

ABBIE M. D. BLOUIN,
CHARLES P. BUZZELL,
ARTHUR E. KENISON,

Report of Librarian of Conway Branch

OF CONWAY PUBLIC LIBRARY FOR YEAR ENDING DEC. 31, 1904.

The year's work has been interesting, helpful, and in some directions encouraging. The circle of readers has been extended, 83 new cards having been issued, while some old readers have moved away or dropped out. As is always the case in a Public Library, the circulation of books of fiction is the largest. The circulation for the year has been: 3403 fiction, 1333 juvenile, 116 biography, 58 history, 65 travel, 9 religious, and 72 miscellaneous books; making a total of 5056, a daily average of 48 16-105, as the Library was open 105 days. It will be noticed how large a proportion of the circulation is juvenile books. There has been a falling off in the circulation from 5548 to 5056. This is due almost if not entirely to lack of suitable books. No juvenile books, none of the up-to-date and popular books, have been added, except an occasional volume by some friend of the Library.

The Life of Lincoln by Ida M. Tarbell, a set of books, Makers of History, have been added and are much liked by one class of readers. A set of Poe's works and of Balzac's have also been added. The children and young people are being trained in the schools to like a good style of reading matter, and books are called for in connection with school work and studies. Our older readers, while most of them ask for fiction, want a good class of fiction, something readable and at the same time helpful.

Government, State, and City books have been given by Hon. C. A. Sulloway, Hon. J. H. Gallinger, Mr. Arthur H. Chase, State Librarian, Mr. E. N. Pearson, Secretary of State, and Dr. A. W. Burnham; books of fiction and other classes have been added by Mrs. S. W. Abbott, Mrs. Anna Simmons, Mrs. S. P. Hodgkins, Mrs. S. C. Hill, Mrs. J. P. Brayton, Mrs. E. A. Fifield, Mrs. B. F. Clark, Mrs. Lucy Drew, Mrs. Junie Hill, Mrs. Ellen Bowles, Mrs. E. B. Carlton, Mrs. Abbie S.

Merrill, Mr. J. H. Bridge, Mr. B. F. Clark, Mr. T. W. Sillo-way, and Mr. H. H. Jones.

Various additions have been made to the Curio department, the most valuable being the bust of Molière, given by Mrs. Ira Atkinson, of Wakefield, Mass.

The usual list of friends have given magazines and papers to the Reading Room: Mrs. H. B. Fifield, Mrs. Mary Redlon, Mrs. A. C. Kennett, Mr. A. C. Kennett, Mr. O. C. Johnson, Mrs. Anna Simmons, Mr. C. E. Blanchard, Miss Winnie Blaisdell, Mrs. J. E. Potter, and The American Baptist Publishing Company.

The work of the new year has opened encouragingly. The World's Work, The Technical World, Success, Cosmopolitan, The Delineator, Epworth Herald, Young People, and the daily papers are on the reading tables regularly, with occasional numbers of other magazines and papers. If we could have new books for the children and also the older readers, our circulation would be largely increased.

LOUISE H. HAMBLIN, Librarian.

REPORT OF LIBRARIAN OF FREE PUBLIC LIBRARY AT CONWAY CENTER.

It is very gratifying to be able to report that the interest in the Library has been unusually good throughout the year, especially among the youth. Lack of new material has caused the patronage of adults to drop in numbers. The reading table has been fairly well supplied, through kindness of friends. Mrs. J. E. Morrill subscribed for The Outlook for the year, Mrs. Nettie Hill subscribing for Success; the librarian finding ways and means whereby Ladies' Home Journal, Good House-keeping, Review of Reviews, and Four Track News were regularly received. Mr. and Mrs. Everett Thoits kindly supplied Everybody's Magazine and Munsey. At various times magazines have been given by Mrs. J. E. Morrill, Mrs. H. S. Nichols, Mrs. T. P. Ivy, and Mrs. R. G. McLoy. For each and all of these gifts we are very grateful.

During the past year the Trustees have purchased The Makers of History, thirty-two volumes, and People's Natural

History, five volumes. The pupils and teachers of the public schools at Center Conway gave an entertainment at the close of the spring term of school. The sum of twenty dollars was realized, which was expended for books for youth for the library, thirty volumes being purchased. Mrs. A. S. Stott very generously gave for the youngest readers twenty-one volumes, besides various papers and magazines. Gen. A. W. Greely gave one book, Richard S. Greenhalge one; Mrs. Anna M. Simmons, through Miss L. H. Hamblen, one book; Miss Isabelle Wells, three books; Mrs. Blouin, two books, and with fines collected purchased seven books, making an addition of one hundred and three books during the year. We should also mention that Mrs. W. J. Comstock, Mrs. H. S. Nichols, and Mrs. Annie B. Lapham each contributed to the fund raised by the school children. To each and all who have, by their gifts, shown an interest in our library, we wish to extend our thanks again, and trust that their interest will still continue.

The Public Library is coming more and more to be recognized as a potent factor in school education. The skillful teacher uses it as an assistance in disciplining the school and a help in stirring up the minds of the dull boy or girl. She has on hand interesting and helpful books for the bright pupil who does his work in less than the allotted time, and suggests the best books to be read at home. Our teachers are fortunate in having the public library, and librarians who are interested in the reading for the young. We can all clearly see the relation between a school of readers and a reading community.

The book circulation during the past year was as follows :

	Fiction	Juvenile	Miscellaneous	Total
Januaay,	142	74	35	251
February,	146	118	45	309
March,	138	87	28	253

I desire to thank the friends and patrons for their many kindnesses and words of encouragement that have rendered my work with and for them so pleasant. Trusting that the new year upon which we have entered will find new books of interest and worth upon the shelves and that new readers may be added to our list, this report is

Most respectfully submitted,

ABBIE M. D. BLONIN, Librarian.
